WHO WE ARE

Amcblast Solutions Limited is an indigenous, dynamic software solutions company committed to building the best and most simplified Web, Mobile & Social applications at an affordable cost. Our aim is to help our clients run their businesses easily and effectively with scalable architectures, cloud deployments, SEO/SEM, and application maintenance.

We have proven technology experts who deliver results — exactly as imagined. RC: 943327 — we believe in building complete products for any industry through extensive research and expert collaboration.

Amcblast Solution is a professional services firm assisting clients with discrete projects requiring specialised expertise in information technology: system implementation, procurement, software development, Project Management, Information System Security and Audit services.

OUR VISION

Our vision serves as the framework for our roadmap — describing what we need to do to continue to be an innovative leader, setting the pace in every industry we serve.

OUR MISSION

To provide companies with a personal and pro-active approach to maintaining and improving their IT infrastructure and software requirements, ensuring measurable business outcomes.

OUR CORE VALUES

Integrity

Honesty and transparency in every brief, proposal and invoice.

Excellence

Consistency and quality through standardisation and senior craft.

Partnership

We win when you win — a long-term, relationship-first posture.

Performance

A passion for winning and the discipline to deliver outcomes.

MEET THE TEAM

Management Board	Minimum 15 years of experience handling various projects with well-known companies — covering design, architecture and implementation.
Network Engineers	Highly trained and certified engineers providing the data path for all communications, working with Cisco, Procurve, Fortinet and more.
Network Technicians	Educated technicians installing infrastructure to international standards: ISO, ANSI, TIA/EIA.
Software Architects	Senior developers and architects with expertise across web, mobile, cloud and enterprise application platforms.
Project Managers	PMI and ITIL-aligned PMs keeping every engagement on time, on budget and aligned to business outcomes.

OUR SERVICES

16 specialist service lines across software, infrastructure, security and automation.

01 Web Design & Corporate Portals	02 Custom Software Development
03 Mobile App Creation (iOS & Android)	04 Technology Consultancy
05 Corporate Training & Enablement	06 BulkSMS & Messaging Solutions
07 Payment Gateway Integration	08 Site Template Sales
09 Company Registration (CAC)	10 Home Automation & CCTV
011 OWASP Software Security Testing	12 IT Infrastructure Procurement
013 Structured Cabling & Networks	14 Data Centre & Server Deployment
015 IT Power Solutions (APC Premier)	16 Project Management & Consulting

1. STRUCTURED CABLING SERVICES

Amcbblast Solutions Limited specialises in data and fibre optic cabling installation and testing, based on reliable, high-quality, standards-based components. We implement new or upgrade current infrastructure to ANSI, TIA/EIA and ISO standards.

Copper Cabling: CAT5E, CAT6, CAT6A, CAT7 systems capable of Gigabyte speeds and more.

Fibre Optic: Single-mode and multi-mode fibre systems for long-distance, high-bandwidth connectivity.

Network Cabinets: Floor mount, wall mount, network racks and server racks — efficiently utilising data centre space.

Certified Testing: Full line-testing with as-built documentation delivered on project completion.

2. NETWORK INFRASTRUCTURE

We cover all your needs when it comes to planning, building or upgrading your network — from connecting a few PCs to share the Internet, all the way to multi-site WANs with VPNs.

- ☐ Routing & VPN: MPLS and 4G VPN services converging voice, data and multimedia traffic onto a single, secure network.
- ☐ Managed Switches: LAN reliability and security — the most vital part of any network architecture.
- ☐ Wireless Networking: 802.11 a/b/g/n POE high-performance access points for airports, hotels, offices, campuses and warehouses.
- ☐ Firewall & Security: IPS, IDS, DoS implementation from Fortinet, Cisco and Microsoft, with a unique plan for every organisation.
- ☐ VoIP / IPPBX: Consult, recommend and implement VOIP technology — cutting telecoms costs while improving functionality.

3. SERVERS & STORAGE DEPLOYMENT

Amcbblast Solutions chooses and acquires the right servers and storage for your organisation, providing wide-ranging server integration services including:

- ☐ Remote Deployment via secure internet connection
- ☐ Standard Installation with OS configuration on-site
- ☐ Rack Integration — rack and cable before delivery
- ☐ Configuration to precise specifications

Partners: Dell Technologies · Hewlett Packard Enterprise · VMware · Microsoft · Kaspersky

4. DATA CENTRE SOLUTIONS

Developing a secure, reliable and efficient data centre is a top priority. Whether upgrading current infrastructure or designing from scratch, our team of system engineers and power/cooling experts engages on an engineer-to-engineer basis to design unique solutions optimised for your business.

- ❑ Software Development, Support and After-sales
- ❑ Environmental Specification & Data Centre Cooling
- ❑ Raised Floor, Cable Trays, UPS
- ❑ Power Distribution Systems & Access Control
- ❑ Surveillance Systems & Fire Protection
- ❑ Accurate As-Built Documentation

5. SECURITY & SURVEILLANCE SYSTEMS

Amcblast Solutions offers a wide range of CCTV security and access control systems — from single cameras to multi-level surveillance and remote management. Fully integrated solutions for any challenge.

Partners: Hikvision · Suprema · Dahua

6. IT POWER SOLUTIONS

As a Premier Partner for APC by Schneider Electric, we provide UPS systems from home scale to full data-centre grade, with full support, SLAs and after-sales service including Schneider Electric warranty. Our team holds the highest certifications in the field of power and energy.

7. SOFTWARE & SOLUTIONS DEVELOPMENT

For businesses of all sizes, we custom-design applications from inception as continuous delivery systems. Our cloud-based applications are designed to grow with your business through a complete Software Development Life Cycle Process.

Amcblast Solutions is a leader in: Hospitality · Transport · LPG Retail · Retail POS · Laboratory Management · Fintech · Healthcare · Education · Real Estate · Government

8. PROJECT MANAGEMENT & CONSULTING

When project timelines are a concern, there is no margin for errors. Our PMI- and ITIL-aligned project managers use the latest tools, technology and creative problem-solving to keep every engagement on

schedule. We begin with your needs, objectives and budget — designing a plan that reflects your goals.

TECHNOLOGY PARTNERS & ACCREDITATIONS

Engineered with enterprise-grade infrastructure to ensure maximum uptime and data protection.
